Nelli Estimate of a Short Crop Set Operators Here and in Liverpool Half Crazy and Liverpool Jumped Harder Than the New York

Market-1.000.000 Bales Bought Here The Nelll estimate of a short cotton crop set operators all over the country and also in Liverpool half crazy, and prices went up ou jump yesterday morning 15 to 25 points here and 50 or 60 American points in Liverpool, while New Orleans leaped 20 points and spot markets 1/4 to 1/4 cents, bringing New Orleans up to 11%. A good many people in the South are setting the "twelve-cent-cotton" fever, and setting it badly. Receipts are small, stocks are insignificant and crop reports, public and private, are aimost invariably of a cerulean tinge. The blue crop outlook, short supplies and the snapping up of spot cotton all over the South for European shipment are the main bull points, and the outside public is buying futures with avidity. The total transactions at the New York Cotton Exchange yesterday were fully 1,000,000 bales. Some of the bears covered their shorts, despairing of any decided reaction. There was a rumor that a combination was being formed to put up prices 1 to 2 cents, but very few gave it any credence. Before the close, there was a reaction due to realizing and final prices were 8 points lower are getting the "twelve-cent-cotton" fever, and sefore the close, there was a reaction due t ealizing and final prices were 8 points lowe 0 4 higher for the day. September closed a 0.30, October at 1021, November at 10.03, De ember at 9.98, and January at 9.93 cents.

Cotton Twenty Points Up in Liverpool.

Special Cable Desputch to THE SUN.
LIVERPOOL. Sept. 13.—The cotton market to-day opened in a tremendous state of excitement at 20 points advance. The General Committee of the Federation of Master Spinners to-day issued a circular recommending that the members of the association stop work for at least twelve working days in October. It is expected that the answers will be almost all affirmative.

GERMAN LOAN \$20,000,000.

Will Be Offered It Is Understood at Par-Inter est 4 Per Cent.

The negotiations that have been going on for the placing of a German Government loan with banking interests in this city were practically closed yesterday, although it was said that it New Orleans, are in danger of slipping into the would not be until to-day that a positive statement that the loan would be taken here could made. The loan is expected to take the form of Treasury notes, yielding 4 percent interest. The notes will have about four years to run, and their total will be 80,000,000 marks, or, roughly, \$20,000,000.

Kuhn, Loeb & Co. have been conducting the negotiations leading up to the placing of the loan here, Jacob H. Schiff, of that firm, is a director of the National City Bank, which is the correspondent here of the Deutsche Bank of Berlin, and as the City Bank now has very large

Berlin, and as the City Bank now has very large cash reserves it is in a position to help in financing the loan without causing disturbance to the money market. On Saturday last it held in cash \$10.410.500 over and above the legally required reserve of 25 per cent. of deposits.

The German Treasury notes, it is understood, will be subscribed for at par, and they will be payable in gold. The money is to be used to meet the heavy war expenses of Germany in China, and it was reported yesterday that as Germany wants the money at once the negotiations with the local banking interests have been conducted on that basis.

The responses of the local financial interests to the proposition that the loan be subscribed for here have been generally very favorable, although one important life insurance company has taken an antagonistic position, based upon the restrictions put upon its business in Prussia. A banker familiar with the negotiations for the placing of the loan expressed the opinion yesterday that it would not disturb the money market or result in gold exports. American credits established abroad against exports of our grain and cotton could be utilized to pay for the Cerman Treasury notes taken here. He expressed the opinion that from now on the taking of foreign loans by this country would be nothing unusual.

PRICES OF PRINT CLOTHS. The Selling Committee at Fall River Withdraw

the Price List. FALL RIVER, Mass., Sept. 13.-At a meeting to-day of the selling committee of the print cloth manufacturers, the price list of print cloths, based on 2% cents for regulars, was withdrawn. The action of the committee in withdrawing its prices is unusual and shows the confused condition of the whole market. The committee is unable to meet the situation rought about by the kite-like movements of the raw cotton market, but by withdrawing the raw cotton market, but by withdrawing prices it leaves manufacturers free to deal as they see fit, while the condition of things is an absolute guarantee that prices will go no lower. If higher prices are offered and taken, then the committee will be able to mark up the list, the question then coming on the maintenance of these new prices. If cotton remains up, the price of cloth will have to be marked up at least \$i\$, of a cent, to insure a profit to manufacturers. But no action will be taken by the committee until it is quite clear that there will be no opposition. Manufacturers here are becoming impressed with the idea that little better than 10 per cent, cotton can be looked for, and they are acting with that idea in mind. Late this afternoon 2 15-16 cents was bid for regular print cloths, and the that idea in mind. Late this afternoon 2 15-16 cents was bid for regular print cloths, and the committee is considering the offer.

LONG ISLAND R. R. CHANGES.

Reorganization of the Operating Department by President Baldwin.

President W. H. Baldwin of the Long Island Railroad has made important changes in the methods of the operating department. The Engineer of Maintenance of Way created in its place, and other changes have been made to grade the work of the operating department in the Pennsylvania Railroad does. There will be little change of personnel at present. The President of the road will be relieved from The President of the road will be relieved from the consideration of various minor details of management which formerly came under his immediate direction. Hereafter only six subordinate officers are to report directly to him, the Comptroller, General Superintendant, Traffic Manager, Secretary, General Solicitor and Superintendent of Express. The office of assistant to the President ceases to exist.

M. stock of the New Amsterdam Gas Company, that, pursuant to its reserved right, the company on and after Sept. 20 next will redeem the depentures at par, without interest, at its office, 4 Irving place, by issuing in exchange therefor its full paid capital stock at the rate of \$190 a share. Scrip will be issued for frac-The Asphalt Company of America will be

The Asphalt Company of America will be absorbed by the National Asphalt Company and security holders have until Oct. 15 to make the exchange. Each 50 share (\$10 paid in) will receive \$10 National Asphalt Company 5 per cent, collateral certificates, \$7 in 6 per cent, full paid preferred stock and \$10 full paid common, stock. All the American Asphalt stock will be held as collateral for the certificates.

Stockholders of the Western New York and Stockholders of the Western New York and Pennsylvania Railroad met in Philadelphia yesterday and formally ratified the lease of that line to the Pennsylvania Railroad.

A proposition to put the control of immigrant railroad traffic in the hands of the Western Passenger Association will be considered at a conference of general passenger agents in this city on Sept. 20. e State Railroad Commission of Minnesota has withdrawn its technical objections to the sale of the St. Paul and Duluth Railroad to the Northern Pacific Company.

Conference To-day on Tin Platers' Wages.

Eleven representatives of the Tin Plate Workers' International Protective Association are in this city to confer about wages

IMPORIS AND EXPORTS INCREASE. Balance of Trade in Our Favor in the Eight

Months of 1900 is \$351,037,219. WASHINGTON, Sept. 13.-The value of the merchandise imported into the United States n the months of August was \$61,626,005, being 5,017,805 less than for the same month last year. The exports were valued at \$103,362,-

479 or \$1,383,541 less than August, 1899. For the eight months ended Aug. 31, the value of the imports was \$564,699,984, an increase of \$49,509,501 compared with the like period of the previous year, and the exports at \$915,737,153, which exceeded by \$123,146,-330 those for the first eight months of 1899. The balance of trade in favor of the United States for that period was \$351,037,219, against \$277,-400,390 in the eight months of the previous year.

WARSHIPS LEAVE BAR HARBOR. The American Squadron Escorts the British

Ships Out Into the Ocean.

BAR HARBOR, Me., Sept. 13.-The last feature f the naval programme was the departure this morning of both the English and American warships. It was even more spectacular and Impressive than their arrival. The morning was a fine one with a crisp air and a wind that shook the bay. The English fleet, which lay in the smailer bay, weighed anchor at about 10 o'clock. They formed in fours and steamed slowly toward Grindstone, then, as they neared Sheep Forcupine Island, changed to column formation and ran around the island, coming up in the rear of the American fleet. As they came down with the Crescent leading, the New York got under way and ran out side by side with H. M. S. Tribune, the Crescent in the position of flagship to the fleet. Then the Kentucky ran along side the Indefatigable, and with high turrets bearing down on the English decks the pair passed out. The Kearsarge came next as the escort of honor to the Psyche, and the Indiana steamed along next towering above the little English torpedo boat qual. The English ships flew all their flags, and as they passed Ironbound fired a parting salute. shook the bay. The English fleet, which lay

STEAMSHIP WHARVES IN DANGER. Those of the Illinois Central at New Orleans Slowly Slipping Into the River.

NEW ORLEANS, Sept. 13.—The big steamship wharves of the Illinois Central, just above river, and part of them have already gone in. The grain elevators are safe. The wharves were erected by the Yazoo and Mississippi Valley Railroad fifteen years ago as a Southern rminus and were subsequently purchased by e Illinois Central, which has used them for e shipment of grain and of horses and mules. I the animals for South Africa were sent from ere. It was recognized for some time that the te was a dangerous one, a quicksand under-ing it, and the railroad has been transferring its business to its Stuyvesant docks in New Orleans. The caving began early this mornin, the entire wharf No 4, which is 250 feet wide, sliding slowly into the Mississippi.

KNECHTS DISHONOR BILLS.

Attachments Against a Parls House and Its San Francisco Counection.

Deputy Sheriff Ahearn has received an attachnent against J. L. & E. Knecht of Paris for \$9,708 in favor of the National City Bank of New York on an accepted bill of exchange made by Smithers, Nordenholt & Co., which was not paid. The attachment was served on several bankers here. Deputy Sheriff Ahearn also received an attachment against Jules Brett, John L. & E. Knecht, Edward Knecht and Jules Join L. & F. Knecht, Edward Knecht and Jules C. Charpentier doing business as J. Brett & Co. at San Francisco, for \$9,693 in favor of the Bank of Montreal on two bills of exchange of J. Brett & Co., which were accepted by J. L. & E. Knecht of Paris, but were not paid. The attachment was obtained on the ground of non residence, Mr. Brett residing at San Francisco, the Meastrs. Knecht in Paris and Mr. Charpentier in Mazatlan, Mexico.

BROOKLYN BRIDGE MEN UNEASY. If Elevated Trains Are Operated on the Bridge They Say Some Jobs Will Be Lost.

There was a good deal of talk yesterday among the motormen and conductors on the Brooklyn Bridge trains over the application of the Brooklyn Rapid Transit Company to of the Brooklyn Rapid Transit Company to run trains over the Bridge by electricity instead of transferring the passengers to the Bridge cars. If the application is granted, the men say, that at least twenty employees will be thrown out of work on the Bridge cars. The Bridge employees are organized and their New York association is to meet next week to consider the situation. The association holds that the leasing of the Bridge to the Brooklyn Rapid Transit Company was illegal and that it has no authority to discharge any of them.

INDIA'S NEED CONTINUES. Multitudes Will Die if America's Ald Falls, Consul Fee Cables.

John Crosby Brown of 59 Wall street, Treasurer of the Committee of One Hundred on India Famine Relief, received additional contributions Famine Relief, received additional contributions of \$3,483 64 yesterday including a donation of \$2,500 from the Pittsburg committee, making the total to date \$238,015.03. The Committee received this despatch from the United States Consul at Bombay, who is the Chairman of the American Relief Committee in India:

Intense suffering continues. The harvests are we-ks distant. Multitudes will die if America's aid faits. Plague increasing in large cities. Cholera smites Europeans as well as natives. The need of relief for orphaned and deserted children is undiminished.

The Weather.

The last trace of the big storm was lost from Nova Scotla yesterday. There was evidence of another storm in the Gulf of office of Chief Engineer of the Long Island Mexico. The winds were blowing to a storm centre Railroad has been abolished and the office of southeast of New Orleans and the pressure was steadily falling in the Guif States. It was raining in the districts bordering the Gulf and as far north as northern Alabama and Georgia. It is not possible to tell the direction the storm will take until the centre s exactly located and the major axis of the storm's outline determined. The pressure was moderately igh over the central Mississippi States and the Ohio

Fair weather prevailed generally north of the Gulf States. It was ten to twenty degrees cooler in the Middle Atlantic States and slightly cooler in nearly all other districts in the morning, but it grew warmer n the afternoon. In this city the day was fair and ten degrees cooler in the morning; northerly and fresh eeze; average humidity, 51 per cent.; barometer, cor-

The temperature as recorded by the official treemometer, and also by THE SUN's thermometer at the street level, is shown in the annexed table:

For western New York, fair to-day; probably rain to-morrow; variable winds, becoming fresh north.

with the officers of the American Tin Plate Company. They are at the Astor House, and are George Powell, President of the association, Charles E. Lawyer, Secretary and Trensurer; Allen Mason, John Rombolt, H. J. Scanlon, William Comstock, Baker Bord, Martin Mooney, E. C. Woodruff, S. W. Settle, and J. J. Ryan, They went vesterday afternoon to the office of the Tin Plate Company in the Battery Park Building, where they held a meeting, but after it President Powell said: "We did not meet the officials of the American Tin Plate Company to-day for we were not quite ready. We expect to meet them to-morrow, however, when we will present our demands."

TO READ "THE SUN'S" REAL ESTATE NEWS and tabular forms of daily transactions is to be better posted in this direction than those who rely on so-called Real Estate mediums, where the effort but partially covers the ground,—Adv

FINANCIAL AND COMMERCIAL.

THURSDAY, Sept. 18. Dealings in stocks were again on a small scale o-day and changes in prices were not important. While for a majority of the stocks dealt in the final figures were lower than those of yesterday there was no actual development of weakness. Stocks suffered more from neglect than anythin, else. The announcement that a strike had been ordered in the anthracite coal regions, to begin or Monday, was received with surprising indifference. The speculative community seemed to think that the strike would be a failure. There was a belief in some quarters, even. that the order, for the strike would be counter-

manded before the time set for it to begin. There is very little unrest among the workngmen of this country. They have been enjoying prosperity in an unusual degree and general contentment is the result. It is doubtful if any large proportion of the anthracite miners are in favor of stopping work. It is the ruling spirits in their organization, apparently, rather than the rank and file, who seek to close the mines. Were there a prospect of a protracted discontinuance of the production of anthracite coa it is believed that it would not be viewed with equanimity. The fact is, the men who have directed the miners to lay down their tools and quit their places do not act as if they are confident of a successful outcome of their controversy with the mine owners. They have paltered to such an extent as to excite the disapproval, by many of the miners themselves, of their course.

The banks have not only not been gaining money from the Treasury this week, but have been losing money on the interior movement, and it is expected that the bank statement on Saturday will show a considerable decrease in cash. Notwithstanding this, money has not tightened. The resources of the banks are so large that no apprehension is felt as to their ability easily to meet any demands that may be made upon them. It was the extensive calling of loans that upset speculative calculations last fall. This is something which is likely to be avoided this fall. A year ago the exhaustion B Col Cop. 11 114 NewEngT 34 NY El VT 75 the surplus reserve compelled the banks o call loans. Now the surplus reserve is so great as to render a contraction of loans unnecessary. In short, there is nothing in the present or prospective state of money to disturb the stock market.

The trading in the anthracite stocks was light. The only stock in which it amounted to more than a few hundred shares was Reading first preferred. Declines were fractional except in the case of Delaware and Lackawanna and the drop in this stock could hardly be attributed to the order for the anthracite miners' strike. Delaware and Lackawanna is an inactive stock and wide differences in the quotations for it are natural. The railroad ist was quiet. There was some disposition to sell Union Pacific, Southern Pacific, Northern Pacific and St. Louis Southwestern preferred, out they yielded only slightly in price. Brooklyn Rapid Transit moved in narrow limits. Offerings of People's Gas were readily taken and its loss in price was insignifiant.

New Orleans est to-morrow....2,200 to 2,800

Augusto..... 2,466 St Louis 3,736 2,465 Houston est to-mor-Augusta shipped to day 1.507 bales; Memphis, 400 bales; St. Louis, 667, and Houston, 2.634 bales. New Orleans closed 1 to 6 points lower. Futures here advanced 14 to 25 points, but reacted and closed weak and irregular with prices 8 points lower to 4 points higher. Estimated sales, 1,000,000 bales. Prices as follows:

Highest. Lovest. Clasing.

October. 10.55 10.52 November. 10.59 10.10 December 10.59 10.10

The transactions in futures here thus far this week are estimated a nearly 4,500,000 bales. The crop reports are generally unfavorable, and the South is getting used to the idea of siming at "twelve-cent cotton." It has reached 115c. at New Orleans Toward the close there was a reaction owing to realizing and a failing off in the demand from shorts, but it is remarked that thus far the reactions have been comparatively small. The market has been moving a shead by leaps and bounds, and yielding ground only very slowly and after stubborn resistance, in spite of liquidation on an enormous scale.

COPTRE-BLO on the spot was easier at \$1/20 for No. 7. Sales, 1,000 bags Mexican. Futures declined 5. to 10 points and closed steady. Sales, 20,200 bags. Havre declined 34. and Hamburg 1/20 to 1/2 pfg. American warehouse deliveles, 5,322 bags. Rio weak at unchanged prices. Exchange, 10 1.16d. dyd. decline. Receipts, 11,000 bags. Stock, 227,000 bags. Santos was at 100 reis advance. Receipts, 40,000 bags. Stock, 758,000 bags. Prices here as follows:
